Description

Producers of Roof Safety Systems.

SAFETY LINE srl is company born in 2008 from the expertise of Engineer Luca De Iseppi .

SAFETY LINE is specialized in the design, manufacture and marketing of security systems for the construction industry.

The roofing division designs, manufactures, installs and tests safety systems for roofs:

- life lines, fixed anchors, railings,

The uniqueness of our life lines are the common accessories, the non-deformability of the poles and the low forces arriving to the poles and to the roof thanks to the shock absorbers.

Our latest PATENTS:

- “SICUR-FLAT” system, a non-deformable anchor plate for sheet metal roofs, testable directly on site
- “LIFE” a shock absorber deformable in case of operator falling sizing the force to a maximum load of 80 kg

All our products are conform to EN795
