

## SELVOLINA s.a.s. – Company Profile

Established in 1977, **SELVOLINA s.a.s.** has a production process fully guaranteed by “MADE IN ITALY” standards. The founders are still the present owners.

Thanks to our long experience in the field of metal structures combined with our quality control on products, we were successful in achieving the **ISO 9001** QUALITY CERTIFICATION, the **ISO 3834-2** WELDING CERTIFICATION and the **EN 1090-2** PRODUCTION CONTROL CERTIFICATION (CE marking) through BUREAU VERITAS as well as the qualification as a **Steel Processing Centre** issued by the Central Technical Service (Italian Ministerial Authorization no. 3002/14).

Our wide and versatile product range has been developed in terms of safety, modularity, handling and strength. We offer high quality standard products as well as bespoke solutions in different sectors:

- Public bodies (municipalities, counties...)
- Building and plant engineering
- Sporting events
- Oratories / Religious places
- Catering
- Agriculture
- Urban furniture
- Private sector
- Trade shows / Exhibitions
- Entertainment
- Communities

The design service is provided by our technical department.

The close cooperation with field technicians is a useful asset for our customers, whose requests can be perfectly satisfied.

SELVOLINE® dealers can rely on a qualified marketing support, including product catalogues, technical videos, operation manuals, displays, samples for showrooms.

A lot of videos showing the quality, easy assembly and various applications of our products can be viewed on the **VIDEO page** of our website [www.selvoline.com](http://www.selvoline.com).

Quick and easy to consult, **the SLIM catalogue** presents a synthesis of our range of products, which are described and illustrated in detail in **the general catalogue**.

The technical features of each item are available in the **dedicated catalogues**.

All SELVOLINE® catalogues can be downloaded from our website [www.selvoline.com](http://www.selvoline.com).

In recent years, we have achieved outstanding objectives worldwide and participated in several trade shows and exhibitions to widen our customer base.

We have carried out projects for the Cuban and Russian markets and sold our products in South America and Africa, thus gaining further experience: now our attention is mainly focused on the world market.
